

# Centrella™ Smart+ Bed

## Model CNT355 Skills Checklist

Staff Signature: \_\_\_\_\_

Trainer's Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Perform the following.

COMPLETED

### Frame Features

1. State the maximum <b>patient weight limit</b> .	
2. Unplug bed's <b>power cord</b> . Identify the one (1) audible and two (2) visual cues when the bed is unplugged from power.	
3. Demonstrate use of <b>battery backup</b> to raise head. Identify controls available on battery backup. Identify % battery 'charged' indicator for bed frame.	
4. Lock head control and unlock <b>retractable foot feature</b> and shorten the bed to shortest position. State all controls that can be locked out.	
5. Explain how bed indicates the <b>communication cable/call light</b> is not connected. There are two (2) audible and two (2) visual indicators.	
6. Lower the head and intermediate <b>siderails</b> on one side of the bed. Raise into a locked position.	
7. Identify one (1) audible and two (2) visual cues that the bed is in the <b>lowest position</b> .	
8. Elevate the <b>lower legs/foot-of-bed</b> so it is parallel to the floor. Explain when this may be useful. Slightly lower feet and then level the legs.	
9. Using <b>CPR control</b> , position bed for CPR. Explain what happens to the mattress.	
10. Remove <b>headboard</b> for emergency access to the head of the bed.	
11. Identify two (2) <b>head-of-bed indicators</b> on the bed.	
12. Identify the built-in <b>siderail line managers</b> .	
13. Identify the <b>hip indicator</b> label for patient placement in the bed. Explain why this is important.	
14. Point to the three (3) areas for attaching <b>restraints</b> on one side of the bed.	
15. Identify the <b>foley/drainage bag holder</b> on one side of the bed.	
16. Explain the <b>foley position limit</b> . Demonstrate how to turn it on and how to recognize it is active.	
17. Explain the difference between when the bed sounds a <b>single beep</b> and a <b>triple beep</b> .	
18. Locate the <b>Boost® control</b> . Explain why to use it and what happens when Boost is activated.	
19. Explain what the three (3) lighted <b>SafeView®+ icons</b> indicate (at the foot-end of the bed and on the floor). Why are there blinking lights? Correct the situation to stop the lights from blinking.	
20. Explain purpose of <b>lighted siderail grip</b> . What turns it on? Explain meaning when light is blue? Amber? Flashing Amber?	
21. Locate and explain purpose of the <b>night light</b> . What activates the brightening of the night light?	
22. Locate these <b>patient accessible siderail features</b> : USB charge port, siderail storage for devices, urinal holder, and head-of-bed angle indicator	

# Centrella™ Smart+ Bed

## Model CNT355 Skills Checklist

### Perform the following.

COMPLETED

- |   |  |
|---|--|
| 23. Explain the <b>patient remote controls</b> : nurse call, bed exit 'on' reminder, stand assist, comfort adjust (mattress) controls. Hang patient remote on all three (3) siderail locations.   |  |
| 24. Demonstrate using the <b>IntelliDrive® Powered Transport (optional) system</b> by moving the bed forward and backward. Demonstrate how to move bed side-to-side as if to straighten in a room or up against a stretcher. State % of battery charge. |  |
| 25. Identify the three (3) indicators for " <b>brake not set</b> " when bed is plugged into power.  |  |

### GCI® Touchscreen

- |  |  |
|--|--|
| 26. Define the three-levels of <b>bed exit</b> sensitivity.  |  |
| 27. Set the <b>bed exit</b> sensitivity to alert before a patient gets out of the bed. State the four (4) ways you know bed exit is ON (patient in bed). |  |
| 28. Pre-emptively <b>SILENCE</b> the <b>bed exit alert</b> . Explain how to add time for Silence period and meaning of <b>triple beep</b> .              |  |
| 29. Resume the <b>bed exit alert</b> . Identify two (2) ways to do this.   |  |
| 30. Explain the difference between the <b>scale</b> "new patient zero" and "same patient re-zero."   |  |
| 31. <b>Zero scale</b> for "new patient." Identify three (3) screens you can check to see if the scale was zeroed.  |  |
| 32. <b>Weigh patient</b> . Demonstrate how to display weight in lbs, then save weight in kgs. Recall weight after saving.                                |  |
| 33. Set the <30° <b>head-of-bed limit</b> . Turn off function.   |  |
| 34. Locate the <b>stand assist</b> control on the GCI® Touchscreen.  |  |
| 35. Demonstrate putting the bed into the <b>chair position</b> . Explain meaning of <b>triple beep</b> .   |  |
| 36. Level the bed from the chair position using the <b>bed flat</b> control.   |  |
| 37. Locate the <b>settings</b> screen. Turn OFF the SafeView® alert lights.  |  |
| 38. Turn off the "Function Not Available" <b>voice alert</b> . What Voice Alert cannot be turned off?  |  |
| 39. Locate on the <b>help screens</b> and <b>service wrench</b> on the GCI® Touchscreen.   |  |

### Centrella™ MAX Surface Features

- |   |  |
|---|--|
| 40. Discuss the <b>appropriate patient use</b> for this product.  |  |
| 41. Discuss how <b>Focused Advanced Microclimate® Technology</b> works.   |  |
| 42. Discuss how <b>weight-based pressure redistribution</b> works.  |  |
| 43. Discuss <b>automatic surface adjustments</b> to help provide support and stability for side sitting and to prevent bottoming out. |  |
| 44. Discuss how the <b>surface adjusts with the frame articulation</b> to help prevent the patient from bottoming out.                |  |
| 45. Discuss the <b>quiet operation and minimized surface movement</b> to help improve patient experience.                             |  |
| 46. Discuss how the <b>sloped heel section</b> can help off load pressure in the vulnerable heel area.                                |  |
| 47. Use <b>Turn Assist</b> to turn a patient to the RIGHT side. Demonstrate how you stop a turn mid-turn.                             |  |
