Classification:	Next Visit

Distribution:	☒ Customer Care	☒ Product Service	☒ Field Service
	☒ ASPs ☒ Distributors	☒ Customers	☐ Company Confidential

Summary:

The Configuration Tool has been updated to version 1.93 from the previous version 1.92 to address a security vulnerability with the share file feature.

Action Needed:

Effective Immediately, as a precautionary measure we recommend all users immediately change their password for the Configuration Tool.

How to change your password:

1) Open a browser and go to the site https://config.welchallyn.com/configurator/
2) Click on Forgot your password? Reset it here!
3) Enter your Email Address and then click CONTINUE.
4) Answer the security question that you chose during registration.
5) Enter a new password and confirm the password and then click SUBMIT.
