

February 7, 2023

Dear Valued Customer,

This letter is to inform you that Baxter (formerly Hillrom) will discontinue all technical phone support, service, repair, calibration, and parts support activities associated with our Welch Allyn® Connex® Vital Signs Monitor (CVSM) 6300 Series effective immediately. As a reminder, on April 1, 2017 we ended manufacturing of the CVSM 6300 Series. We will continue to service the Welch Allyn CVSM 6400, 6500, 6700 and 6800 Series.

A selection of the impacted part numbers is attached in Appendix A of this letter.

Baxter recommends the Welch Allyn Connex® Vital Signs Monitor 6700 or 6800 Series or the Welch Allyn® Connex Spot Monitor as a replacement vital signs device as it provides similar features and added benefits including:

- Measure blood pressure in just 15 seconds with SureBP® technology
- Customize workflows to document patient observations and vitals modifiers
- Choose between SureTemp® Plus or Braun ThermoScan® PRO 6000 Thermometry
- Quickly and securely access a device with single sign-on (including Imprivata® integration)
- Connect to your EMR via WiFi® or Ethernet

To obtain more information about these products from Baxter or to create a transition plan for your facility, please contact your local sales representative.

We thank you for your business, partnership, and loyalty, and we look forward to continuing to serve your needs with other Baxter products. Please contact our customer service department at 1-800-535-6663 or your Baxter representative with questions regarding this notice.

Sincerely,
